

Submission Id: 1608378

Category: Engineering Services

Contract Number: BA-2011-RE-104-DE

Contract Title: Walkway Over the Hudson Navigation Lighting & Omnibus Grant

Description:

The New York State Bridge Authority is seeking proposals from firms of licensed professional engineers to design the upgrade of the navigation light system for the Walkway Over the Hudson (WOTH). Preparation of a Preliminary Design Report for NYSDOT and assistance with the Federal Grant Process is a part of this assignment.

The Authority has been designated as administrator for a federal grant which will be used to pay for the construction of this project. Other work the Authority anticipates performing under this grant involves the removal of vegetation and large trees from the right of way below the bridge and cleaning and painting the lower legs of the steel towers. An additional task under this assignment is to complete the "Preliminary Design Report" and all SEQRA and NEPA environmental reviews necessary to satisfy the grant process.

Successful proposer will not propose a design scheme at this time but should demonstrate expertise in design and familiarity with the standards of transportation, electrical design, the AASHTO code, environmental protection, civil and structural engineering, as well as the WOTH facility itself.

To request the proposal package, contact Teresa Ceragioli via email at tceragioli@nysba.net or by fax at 845-691-7914.

Proposals are due no later than 4:00 PM, Tuesday, February 1, 2011 and shall be addressed to William J. Moreau, Chief Engineer, New York State Bridge Authority (Mailing address: PO Box 1010, Highland, NY 12528); (Fed Ex: Mid-Hudson Bridge Plaza, 475 Route 44-55, Highland, NY 12528).
